Total 55 credits*	

*ASL Courses: Students are required to demonstrate intermediate sign language skills by passing, at a minimum, ASL 2010 (pre-requisites apply), or equivalent on a proficiency assessment. Additional ASL courses are encouraged, and advanced skills are required to teach in some educational settings. Students may take ASL courses prior to and/or throughout the program. If ASL courses are needed, it is highly recommended that the student begin the program one semester earlier (Spring start rather than Summer).
